

Perfect Bound - 2 Page Insert

A single sheet 2-page insert (possible only with perfect binding) should be handled as follows:

Side 1

Size of insert would be the same as the trim-size of your publication.

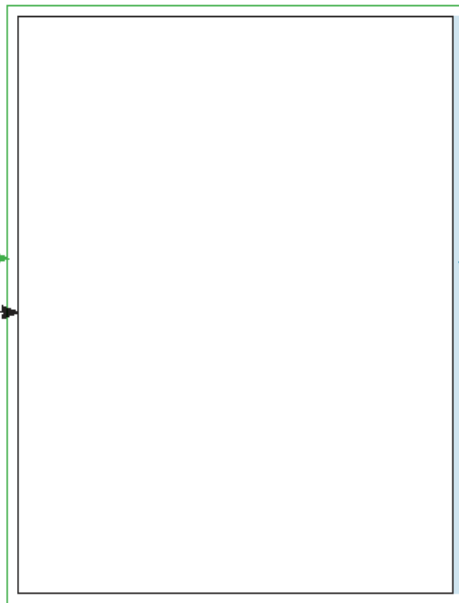

Grind-off area would be added by Cummings during the imposition process.

Side 2

bleed →
trim →

Grind-off area would be added by Cummings during the imposition process.

IMPORTANT

The weight of the stock is important with this style of insert. It must be heavier than the magazine pages.
